TEA SEED POWDER

效能:

1. 含 Saponin, 會破壞紅血球對魚的毒性強, 是一種毒魚劑, 殺死下雜魚, 對蝦類危害小。
2. 養殖池養殖前毒殺下雜魚, 幫助水色, 效果佳分解速度快, 且不易殘留。
3. 蝦類不易脫殼, 可幫助其脫殼。

建議用量: 直接灑入池中使用劑量為 30ppm, 1000m³ 使用 30 公斤。

包裝: 30 & 50 公斤 / 袋

Tea seed powder is an extract from a seeds (camellia seeds) which is widely used for cleaning the pond and killing the snails.

Usage:

1. Killing snails with high effect and no toxic residue Tea seed powder can be used in paddy field, rice field to kill apple snail, golden apple, amazonian snail, earthworm and so on. And it won't bring harm to the rice and grass.
2. Cleaning pond with no pollution Tea seed powder can kill the unusable fish, loach, tadpole, frog-spawn and other insects. It also can accelerate the growth of aquatic-gross and fasten the exuviation of shrimp and crab, but never threaten them. It is use as for elimination of algal infestation on the shell and as agent for force moulting.
3. Natural organic fertilizer Tea seed powder can adjust the soil trace elements and promote the growth of plant roots. It can get rid of the pests, diseases, virus, and even enhance the resistibility to the pests and diseases.

Application:

1. In the pond with heavy population of pest snails or mollusks use high application of dosage 30ppm to 50ppm for killing higher rate pest snail apply a mixture of hydrated or caustic lime and fertilizer - ammonium sulfate at ratio of 1: 0.5 on the dike side or outside portion of water pools. So that snails escaping the very harsh effect of Tea seed powder will be killing by the caustic effect of hydrated lime. Ammonium sulfate mix.
2. Lower application dose is used for pond that are well dried and cleaned.
3. For best result apply on a bright sunny day
4. For pest snail removal in rice field. Dosage 15 to 20kgs. Tea seed powder per hectare to slightly flooded paddy. Can be planted with rice 2 to 3days after tea seed application.

Dosage: Aquaculture Pond:

Water	@ 10-20 ppm	@ 30-50 ppm
0.1 M	10 to 20 Kilograms	30 to 50 Kilograms
0.2 M	20 to 40 Kilograms	60 to 100 Kilograms
0.3 M	30 to 60 Kilograms	90 to 150 Kilograms
0.5 M	50 to 100 Kilograms	150 to 250 Kilograms
1.0 M	100 to 200 Kilograms	300 to 300 Kilograms

NOTE:

Best result, soak first the Tea Seed Powder in the water Apply the solution directly to the pond 30minutes to 1Hour after.

Package: 30 & 50 Kg / Bag
