抽油機  
OIL GEAR (PUMP.ONLY)

W70011 W70021 W70031  
W70041 W70051 W70061 W70071

Features:

Can be automatic the vacuum sucks the liquid, the structure is simple and easy to maintain. Discharging amount steady, the volume amount is with high efficiency, economy is durable.

Material:

Casting iron of high strength, casts steel, big gun copper stainless steel.

Purpose:

High thickness, high viscosity, high proportion liquid suck giving, heavy oil, engine oil, diesel oil, light oil, solvent, various kinds of oil are sucked and sent, resin, paint, soap sour soda fluid and molasses of chemical industry, etc. Transport various kinds of liquid are filtered and filled with smoke and send the liquid medicine agriculturally, the rich water sprays, etc.
